

# PRODUCT SPECIFICATION

## PHC Auto-Retract Ambidextrous Safety Knife with Film Cutter

- The S7 Auto-Retract Ambidextrous Safety Knife is an all-in-one cutting solution designed to meet the needs of professionals who prioritize safety and efficiency.
- Features an extendable metal guard that moves in tandem with the blade, ensuring safer cuts by preventing accidental blade contact.
- The knife also includes an integrated film cutter, making it ideal for various tasks, from opening packages to cutting shrink wrap.
- With three adjustable blade depth settings ; top cuts, shallow tray cuts, and deep cuts - versatile to handle different materials with precision.
- The ambidextrous design ensures ease of use for both right and left-handed users, while the heavy-duty tape splitter reduces blade usage, prolonging its lifespan.
- The tool-free blade change system, combined with the ability to store up to five additional blades, adds convenience and efficiency to your workflow.
